EXPERIENCE

Dykkersport A/S, Oslo, Norway— Dive Centre Assistant

Nov 2010 - June 2011

Worked as an assistant for Dykkersport in Oslo, one of the biggest and longest running dive centres in Norway. Responsibility involved website and mailing lists, gear rental section management, customer service and sales, as well as facilitating dive courses and excursions for clients.

Oslo Montessori School, Oslo, Norway— System Administrator

Nov 2011 - June 2012

Sysadmin at the Montessori school of Oslo. Duties included server maintenance, OS upgrades, access point and infrastructure installation, updated employees workflow by integrating Office 360, organized digital exams for students, tech support.

PROJECTS

Web EMS — Online Employee Management System

Rewrote the employee clocker system for a popular restaurant chain in Oslo. The back-end is primarily PHP with database being MySQL.

SwiftBooks — Integrated e-book reader and bittorrent client

Android app which gives the user a massive book library accessible at the tip of their fingers. Written in Java using Android SDK.

Small Markdown Editor — Lightweight cross-platform Markdown editor

Made as a side project in node.js using NW.js as the desktop interface.

SKILLS

Web Development, both front-end and back-end.

Mobile apps and following responsive design practices.

Object-oriented design, well documented code and following best practices.

Good team player.

Proactive and entrepreneurial mind-set.

Reliable, with good time management skills.

Attention to detail.
